

OzLINK is the fastest way to rate, ship and track with UPS®. It is also the easiest way to check delivery times and validate addresses to ensure your packages arrive exactly where and when they're needed. Whether you're in the front office, back office, or warehouse, OzLINK is the right tool for the job.

ADDRESS VALIDATION

- Regional Validation (City/State/Postal Code)
- Street Level Address Validation
- Residential vs. Commercial Classification
- Automated Batch Address Validation

RATING

- Published and Account Specific Negotiated Rates
- All Domestic and International Services
- Transit and Delivery Time
- Optional Fees (Residential, Fuel Surcharge, etc.)
- Automated Batch Rating

SHIPPING

- Seamless Two-Way Integration with QuickBooks®
 - Online Edition, Pro, Premier, Enterprise
- Seamless Two-Way Integration with Microsoft® Office
 - Excel®, Access®, Outlook®
- Single Package and Automated Batch Shipping

TRACKING

- Reference Number or Tracking Number
- Signed By, Delivery City, Current Status, etc.
- Automated Batch Tracking

UPS Ready®

Oz Development joined the UPS Ready Program in 2004 and is now a UPS Ready Select Technology Provider. Since then, we have OzLINKed over 10,000 happy users. All of our products are designed, built and supported right here at Oz; therefore, if you call us, you'll be sure to get the right answer the first time!

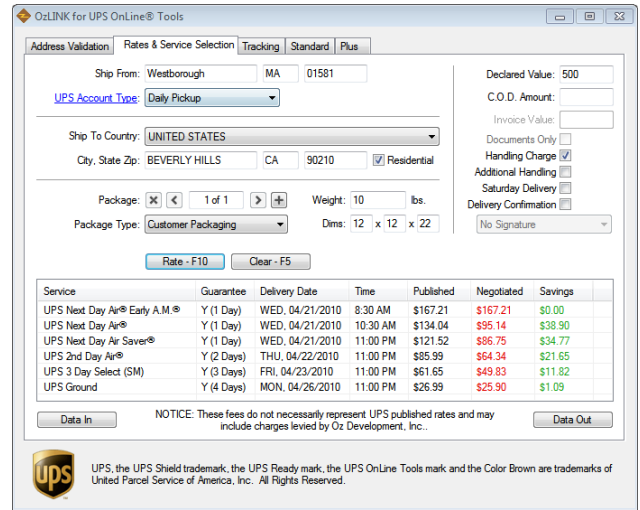

Get started now at www.ozdevelopment.com/upsready

UPS Customer Technology Program (CTP)

Through the UPS Customer Technology Program, our customers are eligible to purchase OzLINK at a discounted, three year, price.

Software-as-a-Service (SaaS)

OzLINK is different from all other UPS Ready solutions. It is designed, sold, maintained and supported as an on-demand service. You will never again worry about compatibility or installing updates. OzLINK is always up-to-date and always up-to-spec, so your shipping process is never interrupted.
