

- Automates your fulfillment process enabling you to ship more orders in less time.
- Enables shipping with all four major parcel carriers.
- Sales order shipping information transfers directly from Dynamics GP to the carrier software eliminating redundant data entry and many costly errors.
- Carrier shipping charges and tracking numbers are entered automatically in Dynamics GP reducing the billing cycle and improving customer service.

The screenshot shows the 'Sales Transaction Entry' window in Microsoft Dynamics GP. The window title is 'Sales Transaction Entry' and it includes a menu bar with 'File', 'Edit', 'Tools', 'View', 'Options', 'Additional', and 'Help'. The main area contains several input fields: 'Type/Type ID' set to 'Order', 'Date' set to '4/12/2017', 'Customer Name', and 'Ship To Address'. Below these is a table titled 'Line Items by Order Entered' with columns for 'Item Number', 'D', 'U of M', 'Qty Ordered', 'Unit Price', and 'Extended Price'. At the bottom, there is a summary section with fields for 'Amount Received', 'Terms Discount Taken', 'On Account', 'Comment ID', 'Subtotal', 'Trade Discount', 'Freight', 'Miscellaneous', 'Tax', and 'Total', all showing a value of \$0.00. The window also has buttons for 'Holds', 'User-Defined', 'Distributions', and 'Commissions'.
